

Flat End canopy measurements

NOTE: canvas part #s are sized according to length of canopy frame and beam of lift. Actual measurements are shown below.

LENGTH OF CANOPY

Length of canopy side frame (fig. B)	17'6"	20'6"	23'6"	26'6"	29'6"
*canopy ends will add 6" to overall length and are adjustable					
Actual overall length of canopy frame with ends	18'	21'	24'	27'	30'
Size designation (the first number in the part #)	18	21	24	27	30

(it's best to measure at or near the end)

WIDTH OF CANOPY

Inside to inside width of lift (the second number in the part #) see figure A	100"	108"	114"	120"	132"
outside to outside width of canopy frame (fig. B)	104"	112"	118"	124"	136"

these measurements should line up together. If they don't, check canopy legs and send pictures before

Canvas sizes available

part # (white, blue or gray are standard colors. Other colors available) add color to end of part #

NOTE: Make sure to use canopy adjusters!!!!!!!!!!

part # (white, blue or gray are standard colors. Other colors available) add color to end of part #
 actual width of frame
 actual overall length of frame
